Profile

A skilled front end developer based in London with expertise in website design, UX/UI, prototyping, typography, branding, and motion graphics. Quick to learn and self-motivated, I bring creativity and attention to detail to every project. My confidence enables me to thrive both independently and as part of a team, consistently delivering reliable and high-quality results.

Skills

Development

HTML5, CSS3, Javascript ES5/ES6, React, jQuery, Node.js, Bootstrap, Tailwind CSS, Git

UI & Prototyping

Figma and Invision.

Design Software

Photoshop, Illustrator, After Effects and InDesign.

Personal Skills

Time management, clear communication, attention to detail, teamwork, problem solving.

Experience

EDX / Bootcamp in Front End Web Development

[November 2023 - March 2024](#) | [Virtual Classes](#)

A 16 week course in Front End Development, learning skills such as HTML, CSS, Javascript, as well as front end frameworks and libraries including React, jQuery, Tailwind CSS and Bootstrap.. Additionally gained experience in server side environments such as Node.js, and developed knowledge of version control with Git.

Webdadi / Senior Graphic Designer

[April 2019 - Present](#) | [London](#)

Provided mentorship to junior designers and played a pivotal role in creating brand guidelines for Webdadi, ensuring a cohesive visual identity.

Led the naming and logo design process for our CRM software, Via, while also conceptualising and creating the Atom website template, which has since become the flagship design adopted by 100% of our clients and endorsed exclusively by our sales team.

Undertook a significant overhaul of the Webdadi website, employing Figma and the atomic design methodology to redesign every element from scratch. This resulted in a notable increase in leads and conversions.

Managed all ongoing projects using Wrike, ensuring efficient communication and timely delivery across the board.

Webdadi / Graphic Designer

[January 2017 - April 2019 | London](#)

Advanced to the role of Graphic Designer, taking over the design and building of website templates—a task previously managed by the development team—by self-learning CSS.

Webdadi / Helpdesk Technician

[March 2015 - January 2017 | London](#)

Began as first-line support on the Helpdesk, using Salesforce to handle client issues and inquiries related to websites and software. Concurrently, took on minor design tasks such as crafting sales brochures and business cards.

Snappy Snaps / Graphic Designer

[February 2011 - March 2015 | London](#)

Designed logos, business cards, leaflets, and posters for individuals and businesses, as well as preparing PDF artwork for high volume print suppliers.

Photo restoration and retouching, as well as digital and film printing.

Designed and produced photo-gifts, such as T-shirts, mugs, placemats etc.

Customer Service and Sales.

D&AD / Awards Production Assistant

[February 2010 - June 2010 | London](#)

Handled the collection and storage of award entries, addressed queries from entrants, and performed data entry tasks.

Aided in setting up the D&AD awards show at Olympia London, and assisted juries when judging award entries.

Other Experience**D&AD / Advertising Workshops**

[August 2010 - October 2010 | London](#)

Participated in an 8-week program pitching a variety of work to leading Advertising and Design agencies such as BBH, JWT, Fallon, Euro RSCG, Blue Hive, and Tomato.

Education**University of Wales, Newport / BA (Hons) Advertising Design**
